

Reinforcement

Worksheet

Have a taste testing and toy party with your dog (or two or three)! Choose several treats your dog enjoys and rate them in order of preference. After rating each, put them in order of most reinforcing to least reinforcing (page 2). Examples of reinforcement: regular kibble, chicken, fish, beggin' strips, pet botanics treats, cheese, carrots, squeaky toys, tennis balls, etc. Try several different treats and/or toys to find out what your dog likes and rank them from low to high.
